

## 9 STEPS TO A SUCCESSFUL REMAP

7. Connect the programmer to the car's OBD port.

8. Follow the on-screen prompts. The programmer will read the current data in the car's ECU.

9. Select 'Programming' and follow the on-screen prompts. Disconnect the programmer and lock the car to shut down the ECU. Test drive the car.

### Becoming a BHP UK dealer

Most hard working people can make the BHP UK dealership a success, but as a minimum, candidates should:

- Be working in, or have knowledge of the automotive industry. This can be either mobile or workshop based.
- Be self motivated and enthusiastic about tuning.
- Be able to work as part of our team as well as on their own.
- Have good customer skills.
- Have basic computer skills.
